Document Identifier: **PMC8653177**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: The trial was approved by the Institutional Review Board of Istituto Nazionale dei Tumori, Milan, Italy, and written informed consent was collected from all patients (INT11221).
Consent: The trial was approved by the Institutional Review Board of Istituto Nazionale dei Tumori, Milan, Italy, and written informed consent was collected from all patients (INT11221).
Inclusion and Exclusion Criteria
Patients with a positive basal anti-SARS-CoV-2 S titre were excluded from this study.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Antibodies			
Among patients who received chemotherapy with or without anti-CD20 antibody, immune modulatory drugs (IMIDs) or novel oral agents within the last 12 months, we selected a cohort of 99 patients and evaluated their SARS-CoV-2-specific T-cell response two weeks after the second dose independently from their serological status after vaccination.	anti-CD20		
Briefly, the Roche Elecsys(r) Anti-SARS-CoV-2 S (Roche S tAb, Roche Diagnostics International Ltd, Rotkreuz, Switzerland) was used to measure antibodies directed against the receptor-binding domain (RBD) of the viral spike (S) protein.	the Roche Elecsys(r)		
	S (Roche S tAb, Roche Diagnostics International Ltd, Rotkreuz, Switzerland)		

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
