Document Identifier: **PMC8662959**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
Specifically, a Western Pacific and South East Asian country or region was eligible for inclusion if it has been delivered of either HB02 (one of the inactivated vaccines included in the current analysis) or CoronaVac (the other inactivated vaccine included in the current analysis) by Feb 2021.
Attrition
not required.
Sex as a biological variable
not detected.
Subject Demographics
Age: To account for heterogeneity in health utility , potential QALY loss related to mortality , and productivity loss across subpopulations , we stratified the model by three age groups including <20 years , 20-59 years , and >=60 years , the distributions of which were obtained from the population projection of the United Nations (United Nations and D.o.E.a . S , 2019) .
Randomization
To obtain the efficacy estimates of inactivated vaccines for the base case scenario , a random-effect meta-analysis was conducted in this study to pool the information from four clinical trials covering HB02 , WIV04 , and CoronaVac (Al Kaabi et al. , 2021 Palacios et al. , 2021 World Health Organization , 2021b) .
Blinding
not detected.
Power Analysis
not detected.
Replication
Chance node 2 replicates the pattern of chance node 1 , whereas chance node 4 replicates chance node 3 .

Protocol Information	
Identifiers: In fact , its efficacy was tested in the same pivotal phase III trial (NCT04510207) as HB02 .	NCT04510207 Warning: study registration date August 3, 2020 is after study start date July 16, 2020

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

Cost ofD-1 , 2021 Indonesia .	Cost		Suggestion: COST (RRID:SCR_014098)(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
