Document Identifier: **PMC8674484**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
Inclusion criteria are as follows: (a) Empirical peer-reviewed studies, published in journals, identifying how men perceive and interpret, contemporary masculinities (b) English language and (c) Research conducted in Western high-income countries.
Attrition
One study did not meet the quality appraisal criteria and was excluded from the review, leaving 33 studies in the review.
Sex as a biological variable
Exclusion criteria are as follows: (a) Not empirical research, for example, book, review, opinion piece, conference paper, editorial, letter, dissertation, or non-peer-reviewed publication (b) The focus was on clinical, medical, chronic disease or health outcomes (c) Literature that used masculinity as an explanation for male behaviors including toxic masculinity, sexual violence, aggression, and gender inequality and (d) Article was not in English, not conducted in a Western high-income country or conducted before 1990.
Subject Demographics
Age: not required.
Weight: not required.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication

not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Methods A search was undertaken on the following databases, MEDLINE, CINAHL, JStor, SocioIndex, Web of Science, Informit Complete, Psychinfo Ovid, ProQuest Social science, ProQuest Central, and Sociological Abstracts.	MEDLINE		Suggestion: MEDLINE (RRID:SCR_002185)(link)
	ProQuest		Suggestion: ProQuest (RRID:SCR_006093)(link)
The medical subject heading (MeSH) masculin* was used with the following keywords hybrid, inclusive, emerg*, divergent, oppositional, resistant, dialogical, caring, new, flexible, chameleon, soft-boiled, person*, cool, contemporary, alternate, modern, metrosexual, hipster and bromance.	MeSH		Suggestion: MeSH (RRID:SCR_004750)(link)
Records were imported into Covidence software and 873 duplicates were identified and removed.	Covidence		Suggestion: Covidence (RRID:SCR_016484)(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
