SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
not required.
Attrition
not required.
Sex as a biological variable
For the isometry assessment, 12 cadaver knees were used, all male with an average age of 64 +- 18 years.
Subject Demographics
Age: For the isometry assessment, 12 cadaver knees were used, all male with an average age of 64 +- 18 years.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
21 , 22 One-way repeated-measures analyses of variance (ANOVAs) were performed using SigmaPlot software (Systat Software , Inc .	SigmaPlot		Suggestion: SigmaPlot (RRID:SCR_003210)(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
A paired t test was used to compare the 210 and 111 femoral tunnel	t test
21 , 22 One-way repeated-measures analyses of variance (ANOVAs) were performed using SigmaPlot software (Systat Software , Inc .	ANOVAs

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
