Document Identifier: **PMC8695887**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
not required.
Attrition
not required.
Sex as a biological variable
not detected.
Subject Demographics
Age: not required.
Weight: not required.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
Numbers of apoptotic nuclei were scored by counting at least 500 cells for each group in triplicate.
Number: Numbers of apoptotic nuclei were scored by counting at least 500 cells for each group in triplicate.
Cell Line Authentication

not detected.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Experimental Models: Cell Lines			
Cellular uptake and targeted imaging of AuNCs-CS-AS1411 HepG2 cells and LO2 cells were seeded with a density of 1.5 x 104 cells per cm2 in confocal plates, respectively.	HepG2		Suggestion: RRID:CVCL_0027(link)
Software and Algorithms			
Statistical analyses were performed using SPSS version 18.0 software (SPSS Inc., Chicago, IL).	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Students t-test for unpaired data was used to evaluate statistical differences.	Students t-test
Oligonucleotides	
Aptamer AS1411 (5-GGTGGTGGTGGTTGTGGTG GTGGT GG-3) were purchased from Sangon Biotech Co. (Shanghai, China).	5-GGTGGTGGTGGTTGTGGTG GTGGT GG-3

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
