SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: Materials and methods Ethics committee approval This study was approved by the Ethics Committee of the Medical Faculty of the Heinrich Heine University Dusseldorf (Ref.2020-1173).
Inclusion and Exclusion Criteria
not detected.
Attrition
Furthermore, three patients had a second Impella 5.0 implantation in the observation period for different reasons, including one readmission due to CS after successful discharge after the first treatment.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Statistical analysis Statistical analyses were performed using the Statistical Package for Social Sciences(r) (SPSS) 25.0 (IBM, Chicago, USA).	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Using this programme, descriptive and comparative (kh 2 test, Mann-Whitney U-test) statistics were performed.	kh 2 test
	Mann-Whitney U-test
However, Fishers exact test was adapted instead of the kh 2 test for a minimum expected value of less than five.	Fishers exact test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
