SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
not required.
Attrition
not required.
Sex as a biological variable
not required.
Subject Demographics
Age: not required.
Weight: not required.
Randomization
Each farmer was presented with a choice set which was randomly selected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.
Data Information
Availability: Table 1 Attributes level Details of the incentives Compensation for farmers to quit rice production Subsidy THB 6,250 per ha THB 7,500 per ha THB 9,375 per ha Financial assistance (Low interest rate credit support) 1-time_payment Pay all the money once after planting the sugarcane cuttings 2-time_payment

Payment in two installments: 50 in the 1st month after planting the sugarcane cuttings and 50 in the 7th month 3-time_payment Payment in three installments: 50 in the 1st month, 30 in the 5th month, and 20 in the 9th month after planting the sugarcane cuttings Production cost support credit_support Low-interest credit support input_support Provide inputs at lower prices than the market Price guarantee price_guarantee Minimum price guarantee for sugarcane in the first year of cultivation no_price_guarantee No price guarantee for sugarcane in the first year of cultivation Harvesting and logistics service_provided Harvesting and logistic services are available at the farmers expense self_management Farmers are fully responsible for harvesting and logistic operations The probit and mixed logit models were estimated by STATA13 software.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
