Document Identifier: **PMC8739869**

# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| IRB: 2 Materials and methods 2.1 Isolation of human auricular chondrocytes The use of human auricular chondrocytes for research was approved by the Research Ethics Committee of The University of Tokyo Hospital (ethical approval numbers: 622, 2573, and 2019094NI). |
| Consent: Patients with microtia provided informed consent for the harvest of human auricular cartilages during surgery at Nagata Microtia and Reconstructive Plastic Surgery Clinic. |
| Inclusion and Exclusion Criteria |
| not detected. |
| Attrition |
| not detected. |
| Sex as a biological variable |
| Six-week-old male BALBcAJcl-nunu mice ( Nippon Bio-Supp . |
| Subject Demographics |
| Age: Six-week-old male BALBcAJcl-nunu mice ( Nippon Bio-Supp . |
| Randomization |
| not detected. |
| Blinding |
| not detected. |
| Power Analysis |
| not detected. |
| Replication |
| not required. |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|
| Experimental Models: Organisms/Strains | | | |
| Six-week-old male BALBcAJcl-nunu mice ( Nippon Bio-Supp . | BALBcAJcl-nunu | | |
| Software and Algorithms | | | |
| Microscopic observation of the cells was performed using a Leica DM IL ( Leica Microsystems K . K . ) . 2.3 Selective isolation of target cells CFSE-labeled chondrocytes were sorted on day 2 or 4 of P2 culture using a BD FACSAria(tm ) | BD FACSAria(tm | | |
| Mice were anesthetized by inhalation of 2 isoflurane ( AbbVie) . | AbbVie | | Suggestion: AbbVie (RRID:SCR_010484)( link) |
| Grafts were collected and halved at 2 , 4 , and 8 weeks after implantation and used for GAG measurements and histological analyses . | GAG | | |
| Gene Ontology ( GO ) ( http:geneontology . org ) and Kyoto Encyclopedia of Genes and Genomes ( KEGG ) ( http:kegg . jp ) were used to analyze the significant probe list for gene enrichment and functional annotation . | KEGG | | |

**Other Entities Detected**

| Your Sentences | Recognized Entity |
|---|---|
| Statistical Tests | |
| For GO analysis , we used gProfiler to calculate the GO term corresponding to a false discovery rate ( FDR ) < 5 that was controlled by adjusting p-values using the Benjamini-Hochberg algorithm . | Benjamini-Hochberg |
| For KEGG analysis , p-values were calculated using a modified fishers exact test and all FDR and Bonferroni values were calculated. | exact test |
| | Bonferroni |
| Comparisons between the four groups at the same time point were performed by Tukeys test from one-way analysis of variance (ANOVA) using the EZR software, version 1.54 19. | Tukeys test |
| | analysis of variance |
| | ANOVA |
| The multiplicity of tests for the number of time points was corrected by the Bonferronis test data obtained at one time point, three time points, and four time points were considered significantly different at P < 0.05, P < 0.0167, and P < 0.0125, respectively. | Bonferronis test |
| Statistical significance of the gene expression data was determined using a Students t-test and fold change (FC). | t-test |

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
