SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: The protocol was approved by the Ethics and Research Committees of the hospital (030906005).
Consent: All candidate patients were given detailed information about the study and all those included provided written informed consent.
Inclusion and Exclusion Criteria
The inclusion of patients started in 1999.
Attrition
not detected.
Sex as a biological variable
0.243 Total 39.2+-20.1 37.1+-20.5 37.2+-20.4 0.188 Sex Male 522 (96.1) 459
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.
Cell Line Authentication

Authentication: HRQoL was assessed using the validated Spanish version of the St Georges Respiratory

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
: significant difference of probability distribution at the three time points calculated for each variable using nonparametric Kruskal-Wallis test P: classified as 0-1 long-acting b2-agonist (LABA) or long-acting muscarinic antagonist (LAMA), 2 out of LABA, LAMA and inhaled corticosteroid (ICS), or all 3 of them (LABA+LAMA+ICS).	Kruskal-Wallis test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
