SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: This study was approved by the institutional review board of each institution (approval number: 2019GR0459 at the institution of the principal investigator) and the Korea Ministry of Food and Drug Safety (2019132469).
Consent: Written informed consent was obtained from all the participants prior to study commencement.
Inclusion and Exclusion Criteria
Eligibility criteria Patients with histologically confirmed unresectable or recurrent gastric adenocarcinoma, whose PM was diagnosed by laparoscopic examination or diagnostic imaging, had an Eastern Cooperative Oncology Group performance status of 0–1, aged 20–80 years, and who had adequate bone marrow, liver, and renal function were eligible for the study.
Attrition
A minimum of three patients were treated at each dose level if none of the patients experienced DLTs. Fig. 1 Chemotherapy schedule of PIPS-GC phase I trial.
Sex as a biological variable
Pregnant or lactating women and patients with severe systemic disease, overt infection, or inflammation were also excluded.
Subject Demographics
Age: Eligibility criteria Patients with histologically confirmed unresectable or recurrent gastric adenocarcinoma, whose PM was diagnosed by laparoscopic examination or diagnostic imaging, had an Eastern Cooperative Oncology Group performance status of 0–1, aged 20–80 years, and who had adequate bone marrow, liver, and renal function were eligible for the study.
Randomization
not detected.
Blinding
not detected.
Power Analysis

not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
