Document Identifier: **PMC8762392**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
not required.
Attrition
not required.
Sex as a biological variable
not detected.
Subject Demographics
Age: not required.
Weight: not required.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
All the reactions were done in triplicates.
Number: All the reactions were done in triplicates.
Cell Line Authentication

not detected.	
Data Information	
Identifiers: All plasmids were generated by using KAPA HiFi PCR kit (KR0368, Roche) and the inserts were verified by Sanger sequencing.	KR0368

Table 2: Key Resources Table

HeLa cells were plated at a density of 60 in a 6-well plate and transfected with the EGFP-IDR(WT) or EGFP-IDR(DP1&P2) plasmid (2 mg of each).	HeLa		Suggestion: RRID:CVCL_0030(link)
Recombinant DNA			
Plasmids for expressing Flag-tagged WT and mutant BRD4 were constructed in pFLAG-CMV2 vector (Sigma).	pFLAG-CMV2		
Plasmids expressing the EGFP fused proteins were constructed by ligating the cDNAs for BRD4-IDR, BRD4-IDRDP1&P2, BRD4 or BRD4DP1&P2 into pEGFP-N1 (Clontech).	pEGFP-N1		Suggestion: RRID:Addgene_172284(link)
The E. coli-based expression plasmids were generated by inserting the cDNAs encoding BRD4-IDR or BRD4-IDRDP1&P2 into pGFP-2xStrep (kindly provided by the Hurley lab, UC Berkeley).	pGFP-2xStrep

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
