Document Identifier: **PMC8771734**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: All participants gave written informed consent prior to participation, and the Institutional Review Boards at Johns Hopkins Medical Institutes and Kennedy Krieger Institute approved all procedures.
IRB: All participants gave written informed consent prior to participation, and the Institutional Review Boards at Johns Hopkins Medical Institutes and Kennedy Krieger Institute approved all procedures.
Inclusion and Exclusion Criteria
Participants were excluded from the study if they were not medically stable, had other neurological deficits, cancer, or other diagnoses that prevented them from participating in the study tests, or had plans that would significantly alter their activity during the study (time off work, vacation, etc.).
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication

not required.	
Data Information	
Identifiers: 20,21 Timed 25 Foot Walk (T25FW): The average of two trials, reported in seconds, is used in the analysis. 22,23 Timed Up and Go (TUG): The second trial, reported in seconds, is used in the analysis. 24,25,26 Accelerometry Immediately following in-person informed consent the clinical measures were completed and the accelerometer was placed on the participant.	24,25,26

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
The ActiGraph accelerometery software generated tri-axial activity data, which we then summarized via minute-level activity counts.	ActiGraph		Suggestion: ActiGraph Activity Monitor Devices (RRID:SCR_008399)(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
