# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| IRB: This study was approved by the Institutional Review Board at Ajou University Hospital of Republic of Korea (IRB approval number: AJIRB-MED-MDB-20-088). |
| Inclusion and Exclusion Criteria |
| not detected. |
| Attrition |
| not detected. |
| Sex as a biological variable |
| not detected. |
| Subject Demographics |
| Age: not detected. |
| Weight: not detected. |
| Randomization |
| Acquisition of medical imaging data for standardization into R-CDM The randomly sampled medical imaging data (41.7 TB; 87203226 images from 2801360 cases), about 10% of the whole dataset, from Ajou University Hospital were approved for usage in research purposes. |
| Blinding |
| not detected. |
| Power Analysis |
| not detected. |
| Replication |
| not required. |
| Code Information |

| | |
|---|---|
| Identifiers: Finally , the OMOP concept ID " 3002086 " linked to the LOINC code " 24727-0 " was searched through the OMOP vocabulary system.14 Overall , we created a mapping table for 5753 protocol terminologies in RadLex and shared it on GitHub ( https://github.com/ABMI/Radiology-CDM). | https://github.com/ABMI/Radiology-CDM |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
