Document Identifier: **PMC8797982**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: The study was approved by Medical Ethical Committee at Jiangsu Province People's Hospital.
Consent: Each patient before study-related procedures had signed the informed consent.
Inclusion and Exclusion Criteria
The following inclusion criteria were: (I) not receiving any anti-tumor therapy previously; (II) an Eastern Cooperative Oncology Group (ECOG) performance status (PS) of 0–2; (III) having normal hepatic, renal and hematologic functions, and no concomitant serious complications; (IV) having complete case; (V) obtaining written informed consents.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Continuous variables were analyzed by t-tests.	t-tests
Fisher's exact test or Pearson's chi-square test procedure was used to compare categorical variables.	Fisher's exact test
	Pearson's chi-square test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
