Document Identifier: **PMC8798196**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: Written informed consent was obtained from each patient.
IRB: Approval for the collection and application of patient specimens was granted by the ethics committee of the First Affiliated Hospital of Hainan Medical University (No.: 2019-57).
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
Each experiment was repeated at least three times independently, and the data were expressed as average +- standard deviation.

Number: Each experiment was repeated at least three times independently, and the data were expressed as average +- standard deviation.
Cell Line Authentication
not detected.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Antibodies			
The membrane was sealed with 5 skim milk for 1 hour at room temperature and incubated with anti-E-cadherin antibody (ab76055, Abcam, USA) overnight at 4 degC.	anti-E-cadherin		
Experimental Models: Cell Lines			
Cell culture and transfection The NSCLC cell lines A549 and PC9 and the human normal lung epithelial cells BEAS-2B were supplied by American Type Culture Collection (ATCC Manassas, VA, USA).	A549		Suggestion: RRID:CVCL_0023(link)
	BEAS-2B		Suggestion: RRID:CVCL_0168(link)
Recombinant DNA			
Luciferase reporter assay The pmirGLO vector was used to construct pmirGLO-ZNF674-AS1-wt (wild type) , pmirGLO-ZNF674-AS1-mut (Mutant) , pmirGLO-E-Cadherin 3UTR (three prime untranslated region)-wt , and pmirGLO-E-cadherin 3UTR-mut fluorescence reporter gene plasmids .	pmirGLO		
	pmirGLO-ZNF674-AS1-wt		
	pmirGLO-E-Cadherin 3UTR		
	pmirGLO-E-cadherin 3UTR-mut fluorescence reporter		
Software and Algorithms			
Statistical analysis Data were analyzed using SPSS18.0 software (IBM, IL, USA) and GraphPad Prism 5 (GraphPad Software, CA, USA).	GraphPad Prism		
	GraphPad		Suggestion: GraphPad Prism, RRID:SCR_002798(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Differences between two groups were analyzed by Students t-test, and single-factor variance analysis was used for comparisons between two groups.	t-test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
