SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: Ethics approval The Research Ethics Board of the Centre integre universitaire de sante et de services sociaux (CIUSSS) de lEst-de-lIle-de-Montreal approved our study protocol.
Inclusion and Exclusion Criteria
We excluded patients with a diagnosis of COVID-19 more than 2 weeks before hospital admission.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: We followed the Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) reporting guidelines.9 Participants Our analysis included all patients with confirmed SARS-CoV-2 infection aged 18 years or older who had been admitted to our hospital from Mar. 1 to June 30, 2020.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Data sources We created and managed a data abstraction form using Research Electronic Data Capture (REDCap).	REDCap		Suggestion: REDCap (RRID:SCR_003445)(link)
We used STATA MP version 16.1 for all analysis.	STATA		Suggestion: Stata (RRID:SCR_012763)(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
