Document Identifier: **PMC8819166**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: 56 Before the official meeting, the researchers sent a Qualtrics survey form to ask for participants' written consent and socio-demographic characteristics.
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
55 Table 1 Key Sociodemographic Characteristics Sociodemographic Characteristics N (%) Gender Male 25 (50) Female 25 (50) Age Generation X 14 (28) Generation Y 13 (26) Generation Z 23 (46) Educational attainment No formal education 0 (0) Less than a high school diploma 14 (28) High school diploma 6 (12) Bachelor's degree 24 (48) Graduate degree 6 (12) Working industries (multiple answers) Healthcare-related industry 4 (8) Technology-related industry 8 (16) Others 38 (76) Health Conditions No chronic condition 22 (44) Have chronic conditions or family has chronic conditions 28 (56) The frequency of internet usage Daily 49 (98) 1–6 times a week 0 (0) Less than once a week 1 (2) Never 0 (0) The exposure level to mHealth Experts in fields (mHealth developers, mHealth researchers) 0 (0) Recognize mHealth applications and engage with mHealth daily 6 (12) Engage with mHealth daily, but do not recognize the mHealth applications 18 (36) Never heard of the mHealth concept 26 (52) Two authors (P.D, H.N) conducted the interviews, conducted the qualitative research training and experience.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis

not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
The research further sorted these themes and subthemes into a matrix table in Excel to compare the data between age groups and healthcare conditions.	Excel		

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
