SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: The ethics committee of the Faculty of Medicine at Hamburg University approved the study protocol.
Consent: Eierstockkrebs Deutschland e.V .) represented by its first chairperson , Andrea Krull , has provided input to the project from a patient’s perspective , reviewed ethical issues and commented on consent forms .
Inclusion and Exclusion Criteria
Eligibility criteria included women ≥18 years of age , diagnosed with ovarian cancer , tubal cancer or peritoneal cancer and primary or interval debulking , scheduled but not started adjuvant or neoadjuvant chemotherapy and sufficient German-language skills .
Attrition
not detected.
Sex as a biological variable
Eligibility criteria included women ≥18 years of age , diagnosed with ovarian cancer , tubal cancer or peritoneal cancer and primary or interval debulking , scheduled but not started adjuvant or neoadjuvant chemotherapy and sufficient German-language skills .
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
After written informed consent , patients were randomised into the IG to receive a 12-months exercise and nutrition programme or the CG to receive usual care.
Blinding
not detected.
Power Analysis
not detected.

Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
All analyses were performed using STATA MP, version V.17.	STATA		Suggestion: Stata (RRID:SCR_012763)(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
