SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: Informed consent was not required because the samples were obtained for a previous study.
IRB: This study was approved by the local medical ethics committee of Hangzhou Xixi Hospital.
Inclusion and Exclusion Criteria
Duplicate strains , defined as the same bacterial species from the same specimen source from the same patient , were excluded from analysis .
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: Patients were divided into two groups: the older group (>=65 years old, n = 1196), and the younger group (<65 years old, n =
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Statistical analyses Statistical analysis was performed with WHONET5.6 7 and IBM SPSS Statistics for Windows , Version 25.0	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Categorical variables were described as counts and percentages, and compared using the chi-square test (kh2).	chi-square test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
