SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
Methods Eligibility criteria All papers involving patients older than 16 were eligible.
Attrition
not required.
Sex as a biological variable
not detected.
Subject Demographics
Age: Study selection Initial screening by title was performed to exclude paediatric papers (i.e. under 18 years of age) and those which focused on MRI or arthroscopy.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Conventional literature was searched using OVID Medline, PubMed, CINAHL and Embase.	Medline		Suggestion: MEDLINE (RRID:SCR_002185)(link)
	PubMed		Suggestion: PubMed (RRID:SCR_004846)(link)
	Embase		Suggestion: EMBASE (RRID:SCR_001650)(link)
The grey literature was searched using Opengrey, EThOS, Proquest, and Open DOAR.	Proquest		Suggestion: ProQuest (RRID:SCR_006093)(link)
There were no similar reviews on the Cochrane database.	Cochrane		Suggestion: Cochrane Library (RRID:SCR_013000)(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
