# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| IRB: The study protocol was approved by the Research Ethics Committee of Queen Margaret University, Edinburgh, UK. |
| Inclusion and Exclusion Criteria |
| not detected. |
| Attrition |
| not detected. |
| Sex as a biological variable |
| not detected. |
| Subject Demographics |
| Age: METHODS Participants In this cross-sectional study, athletes aged 5 years and over with any underlying health condition who participated in Frame Running as part of a club or their national sports organization were eligible to take part in the survey. |
| Randomization |
| not detected. |
| Blinding |
| not detected. |
| Power Analysis |
| not detected. |
| Replication |
| not required. |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|
| Software and Algorithms | | | |
| Statistical analysis was performed using MS Excel and IBM SPSS v23. | SPSS | | Suggestion: SPSS, RRID:SCR_002865( link) |

**Other Entities Detected**

| Your Sentences | Recognized Entity |
|---|---|
| Statistical Tests | |
| Fishers exact tests were used to analyse the association between functional mobility and age and the athlete-perceived impact of Frame Running on physical fitness and psychosocial outcomes. | Fishers exact tests |

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
