SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: Some inclusion and exclusion criteria of this study as below: Inclusion criteria Women: (i) Who were - healthydisease free women, (ii) who were - having single sex partner, that is, MW, (iii) who were - have multiple sex partner, that is, FSWs, (iv) who were - not HPV vaccinated women, (v) age range between 17 and 52 years, (vi) who were - willing to participate in this study and were ready to fill consent form and questionnaire, and (vii) Bihar region of India only.
Field Sample Permit: Biological specimen collection We have collected the 60mL urine samples in sterile collection container from healthy FSWs and MW.
Inclusion and Exclusion Criteria
Inclusion and exclusion criteria All women who met inclusion criteria were invited to participant.
Attrition
not detected.
Sex as a biological variable
Materials and Methods Study population and sample size The study was done at Mahavir Cancer Sansthan and Research Center Patna, India. Healthy FSWs, that is, multiple sex workers and sexually exposed women, that is, single sex partner participated in this study and number of sample size was 197 urine specimen, age range between 17 and 52 years.
Subject Demographics
Age: Materials and Methods Study population and sample size The study was done at Mahavir Cancer Sansthan and Research Center Patna, India. Healthy FSWs, that is, multiple sex workers and sexually exposed women, that is, single sex partner participated in this study and number of sample size was 197 urine specimen, age range between 17 and 52 years.
Randomization
not detected.
Blinding
not detected.
Power Analysis

not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Statistical analysis The data were analyzed through GraphPad Prism 5.03 (Statistical package) software.	GraphPad		Suggestion: GraphPad Prism, RRID:SCR_002798(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Used t-test for P-value with confidence interval (CI) 95.	t-test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
