Document Identifier: **PMC8906121**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
not required.
Attrition
not required.
Sex as a biological variable
Ten females were placed in a Petri dish (diameter: 5 cm; height: 1 cm , including 12 ventilation holes) covered with a paper card.
Subject Demographics
Age: Briefly: three to five days-old mosquitoes were anesthetized by placing them for 1 min at –20 °C and afterwards on a cooling plate at 2 °C .
Weight: For the final bioassays the following concentrations were chosen: 2,000 ppm (100 mg/m2) of triflumizole and PBO , and 5,000 ppm (250 mg/m2) of 1-ABT for strain FUMOZ-R; 500 ppm (25 mg/m2) of triflumizole and PBO , and 1,000 ppm (50 mg/m2) of 1-ABT for strain FANG .
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
All bioassays were replicated at least five times with two replicates (n = 10) unless otherwise stated.

Number: All bioassays were replicated at least five times with two replicates (n = 10) unless otherwise stated.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Control mortality between 5 and 20 % was corrected using Abbott#s formula (Abbott , 1925) , and bioassays exceeding 20 % control mortality were considered invalid.	Abbott		Suggestion: Abbott (RRID:SCR_010477)(link)
Maximal response-over-baseline of each kinetic was subjected to further analysis using GraphPad Prism 8.4 (GraphPad Software , San Diego , USA) .	GraphPad		Suggestion: GraphPad Prism, RRID:SCR_002798(link)
Data were analysed and IC50-values calculated using a four-parameter non-linear regression fitting routine in GraphPad Prism 8.4 . 2.8 RNA extraction and cDNA preparation RNA was extracted from ten adult female mosquitoes of each strain using TRIzol™ reaction kit following manufacturer#s instructions .	GraphPad Prism		Suggestion: GraphPad Prism (RRID:SCR_002798)(link)
Afterwards the RNA quality was checked using QIAxcel capillary electrophoresis technology following manufacturer instructions	QIAxcel		Suggestion: Qiagen QIAxcel Genetic Analyzer (RRID:SCR_018624)(link)
2.10 Statistical analysis Probit analysis of mosquito bioassay data was performed to calculate LC50 values and the 95% confidence intervals using SPSS version 25 (heterogeneity factor 0.5).	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)
4.0 software (Bio-Rad, Hercules, USA) followed by subsequent unpaired t-tests in qbase (Biogazelle) to compare for significant differences in gene expression levels.	Biogazelle		Suggestion: Biogazelle (RRID:SCR_012617)(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Pearson#s correlations between mosquito bioassay data and EC50-values were analyzed using GraphPad Prism 8.4.	Pearson#s correlations
A one-way ANOVA was performed to analyze data for significant differences between data obtained for strains FANG and FUMOZ-R in the biochemical assays.	ANOVA
4.0 software (Bio-Rad, Hercules, USA) followed by subsequent unpaired t-tests in qbase (Biogazelle) to compare for significant differences in gene expression levels.	t-tests

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
