SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: Materials and Methods Patients This retrospective study was approved by the institutional review board of our institute.
Inclusion and Exclusion Criteria
not detected.
Attrition
Of the images of 41 patients that fulfilled the criteria, we excluded those with duplication using follow-up studies (n = 6), bilateral occlusion (n = 6), hemorrhage (n = 5), post-aneurysm surgery (n = 3), and occlusion not in the horizontal potion but peripheral to MCA bifurcation (n = 2).
Sex as a biological variable
Consequently, 19 patients (age, 19-84 years 12 males) were included in the evaluation.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
G likelihood-ratio test was used to compare the decrease in the CSF signal within the Sylvian fissure on low b-value DWI and that of MCA on TOF-MRA.	G likelihood-ratio test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
