SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: , GVHD: graft-versus-host disease The Ethics Committee of Kameda Medical Center approved this study and waived the need to obtain informed patient consent owing to the retrospective , patient-record-based nature of the study .
Consent: , GVHD: graft-versus-host disease The Ethics Committee of Kameda Medical Center approved this study and waived the need to obtain informed patient consent owing to the retrospective , patient-record-based nature of the study .
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
70 (61-74) 0 Male 14 (63.6) 0 Underlying disease 0 Acute myeloid leukaemia 12 (54.5) 0 Acute lymphocytic leukaemia 2 (9.1) 0 Malignant lymphoma 4 (18.2) 0 Multiple myeloma 2 (9.1) 0 Myelodysplastic syndrome 2 (9.1) 0 Allogeneic/autologous transplantation 1 (4.5) 0 Pharmacological treatment before EBUS-GS Antibacterial agent 18 (81.8) 0 Antifungal agent 16 (72.7) 0 Pharmacological treatment instituted after appearance of APL and before EBUS-GS 11 (50.0) 0 Respiratory failure (required oxygen) 1 (4.5) 0 Body temperature (°C) 36.8 (36.2-37.4) 0 Laboratory data Neutrophil count (/μL) 939 (446-2,574) 0 Haemoglobin (g/dL) 8.7
Subject Demographics
Age: Materials and Methods Study population Our single-centre, retrospective, observational, single-arm, descriptive study enrolled 22 consecutive adult (>20 years old) patients with haematological diseases and concomitant APL, who underwent EBUS-GS between January 2011 and June 2016 at Kameda Medical Center, Chiba, Japan (Fig. 1).
Randomization
not detected.
Blinding
not detected.

Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Statistics were obtained using the R software program (version 3.2.3, R Development Core Team; https://www.r-project.org/).	R Development Core		Suggestion: R Project for Statistical Computing, RRID:SCR_001905(link)
	https://www.r-project.org/		

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
