SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
not required.
Attrition
not required.
Sex as a biological variable
not detected.
Subject Demographics
Age: Population The study population included patients over age 18 years who were admitted to hospitals in Colombia between 1 January and 31 December 2016 .
Randomization
The total population was divided randomly into two subpopulations (population A and population B) with a 50:50 ratio .
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.
Data Information

Identifiers: 10.1136/bmjopen-2021-054058.supp1 Supplementary data Standardised mean differences (SMDs) were calculated to determine the	10.1136/bmjopen-2021-054058.supp1

degree of association between the variables and mortality , making it possible to establish percentage differences between the averages of variables pertaining to the comparison groups—namely , survivors and deaths at 1 year .	
Identifiers: 10.1136/bmjopen-2021-054058.supp2 Supplementary data	10.1136/bmjopen-2021-054058.supp2

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
