# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| not detected. |
| Inclusion and Exclusion Criteria |
| 2 MATERIALS AND METHODS 2.1 Systematic search strategy and selection criteria of the journal articles This review was done following the recommended methodology as outlined by the preferred reporting items for systematic reviews (PRISMA) as shown in Figure 1 (Moher et al., 2015). |
| Attrition |
| not required. |
| Sex as a biological variable |
| not detected. |
| Subject Demographics |
| Age: not detected. |
| Weight: not detected. |
| Randomization |
| not detected. |
| Blinding |
| not detected. |
| Power Analysis |
| not detected. |
| Replication |
| However , some studies used duplicates or replicate from the same fly homogenates . |
| Number: However , some studies used duplicates or replicate from the same fly homogenates . |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|
| Experimental Models: Organisms/Strains | | | |
| Five selected pathogenic bacteria , namely , E . coli , E . faecium , Klebsiella pneumoniae , P . aeruginosa and S. aureus were focused on . | P . aeruginosa | | |
| Software and Algorithms | | | |
| These keywords were used to retrieve studies from electronic databases including PubMed (https:pubmed.ncbi.nlm. | PubMed | | Suggestion: PubMed (RRID:SCR_004846)( link) |
| nih . gov , from 01092019 to 08062020 ) Science Direct ( https:www.sciencedirect.com from 06092019 to 08062020 ) and Google scholar ( https:scholar | Google scholar | | Suggestion: Google Scholar (RRID:SCR_008878)( link) |

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
