SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: All study participants provided written informed consent before enrolment.
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.
Cell Line Authentication
not detected.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Experimental Models: Cell Lines			
One hundred twenty microlitres of each plasma dilution was mixed with 80 plaque-forming units of SARS-CoV-2 in 120 µL OptiPRO SFM cell culture medium and used to infect Vero E6 cells (1.25×105 cells/well seeded into 24-well plates 24 hours before).	Vero E6		Suggestion: RRID:CVCL_0574(link)
Software and Algorithms			
Subsequently, the inoculum was removed, and cells were overlayed with a mixture of carboxymethylcellulose (Sigma) and 2× MEM (Biochrom).	Sigma		Suggestion: sigma-tau (RRID:SCR_000488)(link)
Data were entered as double data entry into the REDCAp study database programmed and hosted by SZB.	REDCAp		Suggestion: REDCap (RRID:SCR_003445)(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
